Subject: Radon Questions

Good Morning Larainne:

I have a few questions from the home owner near HTC.

- The elevated radon that is in my basement, can that travel upstairs when the furnace is on since I have a forced air furnace ?
- Can that radon contaminate materials such as clothes and other belonging that are stored in the basement?
- What about food? We have a freezer in the basement along with a pantry of dry goods

Thanks

Regards,

Eric
